## SQUEEEEEK-NO-MORE Kit

Get rid of annoying floor squeaks with this kit and a power screwdriver. Works equally well on hardwood floors as well as vinyl and carpeted floors (even Berber!) No need to tear up the carpeting either. Simply locate the squeak, follow the simple 1-2-3 instructions and you're done.

### Kit includes:

- \* 1 Alignment and Depth Control Fixture
  - \* 50 Specially Scored Screws
  - \* 1 Special Driver Bit
  - \* 1 Special Screw Used to Locate the Joist
  - \* Complete Instruction Booklet
- All you need to provide is an electric drill.*

### How does it work?

1. Locate the floor joist as shown in instructions. Then, push the alignment and depth control fixture firmly into the carpet.
2. Place your weight around the fixture, and drive the scored screw down as far as the fixture will allow it to go.
3. Place the screw gripper (located on alignment fixture) over the screw head, then rock the fixture left to right snapping the head off. The screw breaks at the weak spot that is consistently just below surface of the floor.
