# Two-Component Polyurethane Foam Kits

Portable, disposable and self-contained with color-coded, pre-connected hoses. These kits are available in sizes from 15-600 board feet and provide a quick consistent flow of foam that dries in under a minute. Foam expands 30X.

Touch 'n Seal Two Component Foam Kits are portable, self-contained dispensing systems. When used according to manufacturer's directions, these systems supply thermal insulating and sound attenuating 2-component

polyurethane spray foams. Touch 'n Seal spray foams are permanent and dry within minutes of application.

Touch 'n Seal Spray Foam Kits use disposable, pressurized chemical cylinders to dispense polyurethane spray foams eliminating the need for external air compressors, pumping equipment or dry nitrogen. These systems provide quick and easy foam application for repairs and renovations, new installations and production applications.

2-Component spray foam systems provide fast, even foam flow that cures in about 45 seconds, making it ideal for use on large gaps and on all surfaces.

Foam kits include applicator gun and 10' hose, and illustrated directions. Kits are self contained, portable, and disposable. Contains no CFC's, no urea formaldehyde.
